Part 1: Accessing ADOBE ACROBAT to Complete PDF Worksheets

Every week you will be given worksheets to complete. These worksheets are in a PDF format. This means that to complete them online you need to open an ADOBE ACROBAT programme. You will only need to do this once and then you will be able to access all the worksheets throughout the course.

If you google search Adobe Acrobat, you will be given a list of options – some of them require payment. You don't need these versions as Adobe is FREE. Look carefully before you choose.
